RPThe following Municipal business was twospried on Wednesday :-

At a Yown Meeting holden at Newpart, April 3, 1850, Poted, that George Hall, Edward W. Lawton, John Stevens, George Bowen, Michael Prechorn, Joseph B. Weaver, Christopher G. Perry and Isiae Gorld be and they are hereby appointed a Committee to enquire into the state of the Treasury, and what means may be adopted. aside from direct taxation, to misa money, and report the sum necessary for the support of the poor, and for other purposes, for the ensoing year. Also to adjust the tax bills in the hands of the Collector of Taxes by excuring those in said, bills who who were taxed illegally, and to make a settlement with said Collector. It is forther coted that said Committee be requisied to attend to the daters assigned them as soon as may be, and make report to the Annual Town Meeting in Jone next.

Messis, Samuel Brown, John Stevens and George W. Taylor were apprinted a Committee to enquire into the expediency of widening and repairing the Bliss road, which is now so narrow that it is deflicult for teams to pass each other in certain places, supposed to be in consequence of cucreachinents by the proprietors of the Jand adjoining.

A Petition asking the Pown to instruct the Street Commissioner to repair Prospect Hill street, was referred to the Street Commissioner for his consideration.

The following resolution, after a lengthy debate, was referred to the School Committee, with instructions to report at the Jane Meeting :--

Voted, that in order to increase the facilities of aducation, the Public School Committee are authorised and directed to establish, whenever they deem it advisable, a High School, consisting of two Departments, one for Masters and one for Misses, -and, voted, also that the said Committee be and they are hereby anthorised to procure a suitable building for that purpose, either by leasing, purchasing, or execting, whichever in their judgment will most con duce to the interest of the Town, and that the sum of - dollars be paid for that purpose out of any money in the Town't

Treasury not otherwise appropriated. The following resolution was passed Resolved, that the Town Treasurer be and is hereby authorised and directed to make and excente a deed to J. Picscott Hall, Esq., of the Baker-Spring lot, upon the terms and in the manner recommended by the Committee to whom was referred the aucstion of the expediency of the sale of ead but, provided application therefor be made before the first day of June, 1850.

A resolution was offered to sever the Probate business from the Town Council, which was referred to Messes. George Threner, Christopher G. Perry and Samuel Brown, with instructions to report in the afternoon. The Committee made the fol-Iowing Report :-

The undersigned, who were this day appointed a Committee by a vote of the Town Mouring " to consider the expediency of severing the Probate Lusiness from that of the Town Conneil of this Town. and to report to this Town Meeting, " haveing devoted the intervening time to a consideration of the subject, beg permission to submit the following Report :-

The duties, by law, imposed upon Town Conneils, strictly speaking, as such, embraving their financial, productial and police concerns, if not inconsistent with, have certainly no necessary relation or connextion with those pertaining to Courts of Probate. The Commutee are under the impression that in none of the United States, Rhode Island alone excepted, have these several and distinct powers and duties ever been vested in the same body of men. Our own experience and observation satisty us that in mony instances individuals, every way perfectly familiar with and capable of well-managing the affices of the Town will not serve the Town therein, because they will not assume the responsubility of deciding Probate affairs, which require knowledge and experience of a very different character, and of which they are ignorant. So,on the other hand, it is found that individuals who by education and axperionen are qualified for the discharge of Probate duties, will not consent to serve, because they will not embarass, themselves or the Town by attempting the introgement of the details of Town affairs, with which they are wholly macquainted. It, therefore, must sometimes happen that the Town will lose the last qualified man in both copucities, Levanse they are united; when they might secure them for both, if they were entirely disconnected, and the appropriate duties of each were superately discharged.

The Committee have no certain means of calculating what the comparative expense

to the Timen who I have upon such a septic ution as is contemplated by the Resolution or Vote,—but see no reason why it should a in any way increased. The Probate mainess, of course, would pay itself by fies. The Town Council could, probably, (if they exacted any pay) I'v paid the same

The very short time allowed to the Committee for an interelerage of views on this subject, presents much detail in this Reout ; but the views above expressed induce the undersigned to trecommend such a change as the Vote seems to contemolato; and that a Connoittee be appointed to prepare and present to the General Assearbly a Bill for an Act adapted to carry into effect the proposed change.

GEORGE TURNER, Com'e. C. G. PERRY. Newport, April 3, 1650.

The Report was received and adopted. and the Delegation in the General Assembly were instructed to draft a Bill agreeable to the above Report, and produce its passage through the General Assembly.

Washington, Tuesday, April 2-Р. М. By eleven niclosy to day the semi-circular gallery in the Sonate Chamber was filled with ladies. Not one in tea could obtain admission. The dusks had been removed from the Senate Chamber, and as many chairs were placed on the floor as it would accommodate. Two of the Cenmittee of Arrangements Messis, Greene, and Jellerson Pavis, with Mr. Frlmore and Secretary, Pielens appeared will white silk sashes over the left aboulder.-In the middle and e was a stand for the collin, encound with a black velvet pall.-The members of the House of Representatives entered the chamber at fifteen minnies past cleren, a very full citendance, headed by the Speaker and Clerk, who were white cashes. The members occupied chairs placed in the half circle within the bar. At half past eleven the Sapreme Court was announced. Congress rose to receive them and the Judges took their sents on the left of the Chair. The Foreign Mic s'ers came next and took seats on the left of the Chair behind the Senators.

Sir Henry Bulwer was between Mr-Cableron and Mr. Lecompte. The President of the United States was next annom ecd. The august assemblage receiv ed the Chief Magistrate standing, and he took a seat on Mr. Fillmore's right followed by all the members of the Cabinet. Among the distinguished persons in the lobbies were John Y. Mason, ex-Secretary

of the Navy, Admiral Wormley, British Na vy, Gav. Maroy, Judgo Barbour, Thomas Richie, Commodures Morris, Warrington, brubrick und Ballard, Col. Telentt, Gener als Jessop and Roger Jones, The Postmaster General, Commissioner Ewbank, Mayor Seaton, Gen. Henderson, Major Graham, and many others.
At 12 1-2 Hev. C. M. Butler, Chaplain

of Senate, emered in his a cerdatal robe, reading the funeral service of the Protestant Episcopal Church. "Lam the resurrection and the life," &c. The coffin was then brought in and placed on the velvet pall in front of the Vice-President's chair. The pull hearers, Messrs. Mangum, Clay. Webster, Cass, King and Berrien were in attendance, and others of the deceased's friends and near communities having black silk sashes. Several ladies of Mr. Culhoun's family were also present in deep mourning. The undertaker unserewed a plate in the coffin, exhibiting the pale features of the deceased, whom I saw in his seat the last day he set on that floor, three or four yards from the place, where his remains now lay cold in death. Flowers were strewed over the bier. The Foreign Ministers were dressed in plain black clothes. Some of the mayal and military officers were their uniform, while other were dressed in plain clothes.

Mr. Bether delivered a very impressive and appropriate discourse, and was listened to in unbroken silence. The great traths of religion applie alle to all who live, were made known by the champion of too cross in a nonmer every way worshy of his highvocation. Such an interesting scene I have seldom witnessed. Most tric was his fawith, that the distinguished dead there helore them can bijuard the trial at tivalty and scake to them of the fature in language for more powerful, than any that the living could use. Mr. Butler's voice was strong, pleasing and remorans, Lismanner hold and carried; and the words of his discourse were selected with taste. and convinced the allostrious assembly whom lookidn said that he felt as he spoke. After Mr. B (Cor corolladed, the procession less the chamber for their enringes. The family of throcesof and near relatives first, then the delegations from Sentis Carobia as monroces; movi tim Schole, Vice Prevident Filliame first with Mr. Dickers, followed by Gov. Seward and the Senators. Gen. Taylor, in plain black clothes, was next ar nonneed; then his Cobinet, the Supreme Court. the Porcigo Andressulers, each with hat in Irasi, the Naval and Muiture officers. and the City Council precided by the Mayere

At Morrow a green looking Hoosier got up a the cars, tied a large our dog be had with him to the iron, stanching of the hindmost car, and deliberately took his seat among the ladies. Away bounded the iron horse with his usual speed, to the no small wonderment of the countryman, who had never ridden so fast before. Arriving at Foster's Crossings, he walked back to take a look at his favorite animal, and his surprise may be imagined when he found only the head of the dog attached to the rope with which he had fastened him. Also it is found to be an invaluable tenerity for the Eryspelas, and that distressing disord r, the Astima. It has proved heighly beneficial in some cases of Deopsy, Dysentery, Distributes.

It will be found by observation that many of the above disorders, and also that Lual distract Philis Pulmonalis, or Consumption, generally originate in a servidions state of the system; and to core such diseases, we must remove the primary cause. It will be known be found that distracts of the Liver often originate with persons of a ser-linear habit, and are called liver compositely such tites a well established part that hefere such by services and the services that the services the fiver complaint and my permanently sured this serodious dathesis must be removed.

entred this serolulous diathesis must be removed.

That this is the effect of this Syrap, bradicels of the most competent judges, who have seen and left the victure of its sanative power can bear witness. It is a laxative, dimertitation, and greatly alterative, and is prepared from the best and most virtuous alteratives of the vegetable bingdom, without the addition of any mineral substance whoever. It is a perfectly safe medicine, and may be taken at any time without regard to wender or exercise.
